Counsel for Wisconsin Legislature & Respondents Senators Cabral-Guevara, Hutton, Jacque,
Jagler, James, Kapenga, LeMahieu, Marklein, Nass, Quinn, Tomczyk & Wanggaard

**Admitted pro hac vice*

1. On December 22, 2023, the Court issued an Order directing the parties to “confer and attempt to reach a stipulation as to the redistricting data that will be used in this case by all the parties, Dr. Grofman and Dr. Cervas, and this court,” and to “file either a stipulation as to the redistricting data or a report that the parties were unable to reach a stipulation on that subject.” Order of Dec. 22, 2023, at 2. The Court further ordered that, “[i]f the parties stipulate that redistricting data other than that maintained by the Legislative Technology Services Bureau or the United States Census Bureau is to be used in drawing remedial maps, the parties shall file with this court an electronic storage device containing a copy of all stipulated data and shall serve an electronic storage device containing that data on Dr. Grofman and on Dr. Cervas by overnight delivery service.” *Id.*

2. In response to that Order, all parties¹ jointly stipulate to the following facts regarding the redistricting data.

3. In 2021 and 2022, for purposes of legislative redistricting, the Court and all parties to *Johnson v. Wisconsin Elections Commission* (Case No. 2021AP1450-OA) used the dataset referred to here as the “August 2021

¹ This Joint Stipulation’s references to “[a]ll parties” refer to the parties that appeared in Court at the November 21, 2021 oral argument. The Wisconsin Elections Commission and its individual Commissioners and Administrator have informed the Court that they have no role or interest in determining where legislative district boundaries are located, and accordingly they have taken no position on the merits of the claims in this original action.

Redistricting Dataset,” which the Legislative Technology Services Bureau publicly released in August 2021.

4. All parties agree that the Court, its consultants, and the parties in this case should use the August 2021 Redistricting Dataset, which can be downloaded from this webpage—<https://gis-ltsb.hub.arcgis.com/pages/download-data>—by clicking on the “Census and Redistricting Data” tab and then on “2020 Wisconsin Blocks without Water.” This data includes both ward and municipal assignments for every Census block.

5. All parties agree that a ward fragment in the city of Franklin in Milwaukee County (Census blocks 550791873003009, 550791873003010, 550791873003011, 550791873003012, 550791873003013, 550791873003014, 550791873003015, 550791873003026, 550791873003027, 550791873003028, 550791873003029, and 550791873003030) should be treated as a whole municipal ward, with its own municipal-ward number (015B), when evaluating a proposed remedial map, regardless of its ward assignment in the August 2021 Redistricting Dataset. The corrected ward assignment data is available at “TIGER2020_PL20_Blocks_wFranklinCorrection,” <https://ltsb.maps.arcgis.com/home/item.html?id=c9ea245522cd43448f58be75c97bb482>.

6. “Appendix A” to this Joint Stipulation identifies 215 additional “ward fragments”—that is, single populated or unpopulated Census blocks or small groups of populated or unpopulated Census blocks—with inaccurate municipal-ward identifiers due, at least in some instances, to the misassignment of certain Census blocks to certain municipalities in U.S. Census data.

7. All parties agree that the Franklin ward and the 215 additional ward fragments identified in Appendix A do not reflect true municipal-ward “islands,” that is, noncontiguous territory which is separated by the territory of another municipality from the major part of the municipality to which it belongs, *see* Wis. Stat. § 5.15(1)(b), (2)(f)(3).

8. All parties agree that detaching any of the 216 ward fragments identified in Appendix A from the rest of the ward to which it is assigned in the August 2021 Redistricting Dataset will not count as a ward split when evaluating a proposed remedial map.

9. All parties agree that any of the 216 ward fragments identified in Appendix A will be considered part of the municipality to which the August 2021 Redistricting Dataset and the 2020 Census Redistricting Data assigned it, regardless of whether that assignment may have been due to error in the U.S. Census data, when evaluating a proposed remedial map.

10. All parties agree that if any party (or its attorney or expert) discovers any additional ward fragments that are data errors, the party will promptly notify the other parties, the Court, and its consultants.

11. All parties agree that the last two columns in Appendix A refer to alternative ward designations. All parties agree that other parties may use alternative ward designations for some or all of the 216 fragments listed but do not anticipate that using alternative ward designations will affect the evaluation of proposed remedial maps, given the parties' foregoing stipulations. *See supra* ¶¶8-9.

12. All parties agree that no further briefing on these issues is necessary at this time.

Dated: December 30, 2023
