madison Appeal

2013 AP 000 710

city Attorney didn't verify facts on why I was found guilty of disorderly conduct nor gave me a chance to provide evidence at municipal court. At West Allis do to the city Attorney more focused on my past she wasn't to fault of allowing me to prove my finances, which my past has nothing to do with what happened to me.

I was checked by a person I didn't know and later found out later it was a We Energy worker if it wasn't for that I would've had my ticket dismissed.

In court the man admitted he checked my neck and had no identification on him at the time. The officer I tried calling never returned my calls.

p.2B

There was nothing in West Allis
municipal court stating I was disorderly.

West Allis police Don't like me Because of
my past And didn't Help me or Allow me
to prove my Innocence. Because of my
past They Don't want me to Be able
to fight this Appeal. I took Every step
And guarded what to do and

informed Everyone. The clerk of courts
told me on the phone I informed Everyone
I needed to.

The city Attorney was more Helpful
to the person who did this to me than
me who this happened to. am still in
pain From July. 2012.

If I got A chance to go to
court properly the city Attorney Afford
I will win Because Everyone will find
the truth instead of them covering there Mist
