COURT OF APPEALS
OF WISCONSIN

I'm really not to court savvy, and that being the main reason this all being so much of a mess up until this point. But I would like to point out two main factors that were ignored throughout this case up until my briefs were filed. 1) first being, I wrote a letter or correspondence to Judge W. Harahan's office on 3/1/2014 2 days after sentencing requesting to seek post conviction relief / Direct Appeal.

I received the letter from the court stating, due to me having an attorney on record I could not seek post conviction relief on my own and any "motions" had to come from my attorney. He did not make himself available after I repeatedly requested him to file for my direct Appeal. The court misconstrued that letter as a request for a "sentence modification" then set the hearing for April 4, 2014 @ 2:30pm. I requested my direct appeal within the 20 day limit that the court allows. 2) 2nd, the court case my motion was pertaining to was '13CF000078'. This was made very clear in the letters I had written. However on the date of the hearing, they made their decision and addressed a entirely different case #. # "2013CF000146" And even addressed a case that had to be resolved in 2012. of which had been resolved. Case # 2011CF002120 These factors along with the fact that Crystal Newel (supposed Victim) recanted her story on many occasions was ignored by the Circuit Court! She also signed

and mailed a signed affidavit stating she had made a false police report. The court ignored all of these factors and proceeded to respond to case # 2013ct020146. And based there decision on the case that was never presented by me. All of the documents and dates are on record and clearly dated and specific. Your Honor/court of appeals, I just want what's right to happen. I just want the chance at fairness that the DA's Office and Circuit Court has not allowed me. And I was in prison, with out any legal assistance, no public defender or any way to state legal law resources. I have no funds to attempt to receive any sort of assistance. I just wanted to make clear what some of the hearings and dates of letters were in regards to.

Thank You dearly for even
taking time to read this
letter.

Sincerely,
Germaine Greer #08303-070

P.S. Please read
the letters wrote from me
on July 09th 2014 directed
to Judge Hansman! And any
letters before that date directed
to Dane County Circuit Court from me.
These would be the letters I wrote requesting
my direct appeal rights.
