MEMORANDUM

TO: Speaker Robin Vos

FROM: Legislative Reference Bureau

DATE: January 3, 2022

SUBJECT: Geographic retention in congressmen's revised proposal in *Johnson v. Wisconsin Elections Commission*

You requested information related to the revised congressional redistricting proposal that you provided from the congressmen intervener-petitioners in *Johnson v. Wisconsin Elections Commission*. Specifically, you asked for data on the proposal's geographic retention. Geographic retention is a measure of the area in each congressional district under current law that remains in the same congressional district under a redistricting proposal.

In the congressmen's revised proposal, 96.7 percent of Wisconsin's geographic area stays in its current congressional district.¹

Current District	Land Retained (Square Miles)	Land Moved (Square Miles)	Percent Land Retained
1	1,772.2	2.4	99.9%
2	4,029.5	576.8	87.5%
3	10,721.9	703.7	93.8%
4	129.2	0.0	100.0%
5	1,942.3	11.7	99.4%

¹ Measured in ARCMAP 10.7.1 with a North American Datum of 1983/2011 Wisconsin Transverse Mercator (US Feet) projection. This measure only compares those 2020 census blocks which have congressional district assignments. This measure does not include unassigned water areas, such as the Great Lakes and Lake Winnebago.

6	4,879.9	199.6	96.1%
7	23,972.3	0.1	100.0%
8	6,574.8	360.1	94.8%
Statewide	54,022.2	1,854.4	96.7%
